O&O BlueCon 21: New Era in System Recovery with Innovative Features and Editions

Berlin, March 26, 2024

O&O Software, a leading developer of powerful system software for Windows, today announces the release of O&O BlueCon 21. With this latest version, our company underlines its commitment to innovation and user-friendliness in the field of system rescue and data recovery. O&O BlueCon 21 introduces a wide range of new features and improvements alongside the time-tested features of the previous version, enabling administrators and IT professionals to solve system problems faster and more efficiently than ever.

Main features of O&O BlueCon 21
WLAN Support: This enhancement enables IT professionals to access and repair systems over wireless networks, significantly increasing flexibility and mobility.

Simplified Boot Media creation: Without having to install the Assessment and Deployment Kit (ADK), the creation process is accelerated and simplified, reducing potential sources of error.

Easier to use thanks to ShellConfig: This new feature optimizes and simplifies the startup process and accessing O&O BlueCon's features. It also automates the reloading of drivers and the unlocking of BitLocker drives.

Solutions to daily problems with O&O BlueCon

- Automatically reload drivers and unlock BitLocker drives: ShellConfig
- Remove updates installed by Windows: O&O UpdateRemover
- Backing up and restoring data: O&O DiskImage
- Restoring accidentally deleted data: O&O DiskRecovery
- Driver problems and service issues: O&O DeviceManager
- Secure deletion of data volumes: O&O SafeErase
- Resetting passwords: O&O UserManager
- Partitioning hard disks: O&O PartitionManager
- Combat errors in the registry database: O&O RegEditor
- Advanced error detection: O&O EventViewer and O&O CheckDisk
- Locating and removing data: O&O FileExplorer
- Downloading additional tools: Integrated Firefox browser
- Download additional tools, integrated PowerShell

Special Editions for different requirements
O&O BlueCon is available in four editions, ranging from the beginner's version to the comprehensive Tech Edition, allowing it to meet the needs of various IT environments. Each Edition is specially tailored to the needs of administrators and can be used on a multiple number of PCs or

within specified areas of use.
